PROFESSIONAL SUMMARY

Full-stack developer specializing in Laravel and React with hands-on experience building and maintaining multi-tenant SaaS platforms. Strong background in scalable architecture, database isolation, and business process automation. Experienced in delivering production-ready systems that improve operational efficiency and system reliability.

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, C#

Frameworks: Laravel, React.js, Vue.js, Inertia.js, .NET Framework (WinForms)

UI & Styling: Tailwind CSS, shadcn/ui, Bootstrap, HTML, CSS

Databases: MySQL, MSSQL, SQLite

Tools & Platforms: Git, WordPress, REST APIs

PROFESSIONAL EXPERIENCE

Bangalow Pty. Ltd. | *Junior Software/Web Developer*

April 2025 – Present

- Develop and maintain a full-stack multi-tenant SaaS platform using Laravel, Inertia.js, React, and TypeScript.
- Implement database-per-tenant isolation architecture to ensure data security and scalability.
- Design and build custom business management systems tailored to operational workflows.
- Refactor and enhance legacy C#/.NET WinForms systems to improve performance, maintainability, and user experience.
- Identify and resolve system bottlenecks, reducing recurring issues and improving application stability.
- Collaborate with stakeholders to translate business requirements into scalable technical solutions.

Self-Employed | *Freelance Full Stack Developer*

June 2024 – April 2025

- Designed and developed custom full-stack web applications for clients using Laravel, React, Vue, and FilamentPHP.
- Built scalable backend systems with structured database architecture and RESTful APIs.
- Implemented dynamic and responsive front-end interfaces using modern UI frameworks.
- Delivered end-to-end projects independently, from requirement gathering to deployment.

Encore Leasing and Finance Corporation | *Programmer / Data Center Staff*

Oct 2023 – June 2024

- Developed internal systems that streamlined business operations and reduced manual processing.
- Managed cloud and on-premise servers, ensuring system uptime and performance stability.
- Administered and optimized MSSQL and MySQL databases, improving query efficiency and data integrity.
- Provided technical support for loan management systems, minimizing operational downtime.
- Implemented IT policies and security measures to standardize infrastructure and improve compliance.

Arao Software Development Services | *Web Developer (Part-Time)*

May 2022 – Sep 2022

- Built responsive web applications using PHP, JavaScript, HTML, and CSS.
- Developed custom WordPress solutions with backend functionality.
- Collaborated with development teams to deliver projects on schedule.

Alalay sa Kaunlaran Incorporated | *Technical Support Intern*

Jan 2023 – May 2023

- Provided hardware and software troubleshooting support across departments.
- Assisted in data management, reporting, and system updates.
- Created structured reports and data presentations using Excel and PowerPoint.

PROJECTS

Inventory Management System — *Full Stack Developer*

- Built a barcode-integrated inventory system to improve product tracking accuracy and speed.
- Designed backend architecture using Laravel 11 and SQLite.
- Developed reactive front-end using Vue 3, Inertia.js, and Tailwind CSS.
- Implemented state management using Pinia for optimized UI performance.

Reklamoko – Complaint Reporting & Management System — *Full Stack Developer*

- Developed a web-based complaint reporting platform for barangay-level governance.
- Built backend using PHP and MySQL with structured database schema.
- Designed responsive user interface using HTML, CSS, SASS, and JavaScript.
- Improved accessibility of complaint submission and tracking for residents.

EDUCATION

Nueva Ecija University of Science and Technology

July 2023

Bachelor of Science in Information Technology, Major in Web Systems Technology

Honors: Academic Distinction Awardee

CERTIFICATIONS

Information Technology Specialist – HTML and CSS | *Certiport*
